Karel,

The due date for the Site Conceptual Model and Data Gap Work Plan was previously extended to July 8, 2017.

We have been in frequent communication with Chevron and NCS during this extended period in order to reach an agreement. While we are close to an agreement, we do need an additional extension in order to resolve our issues. We are requesting an extension to August 4, 2017 by which date we feel confident that we will be in a position to provide the required reports.

Thank you.
