Donna / Jerry

Good afternoon. AEI recently performed a Phase II subsurface investigation at the subject site. During the investigation, contamination was discovered, therefore on behalf of our client, we are submitting the report with findings. It has been uploaded to your server, however since it is a new project I don't have an RO Number. Our client is requesting that the county work with AEI in order to obtain case closure for the site. Please contact me with any questions you may have or if you need any additional information.

Regards

Jeremy Smith, REA II
