Subject: RE: Offsite Assessment Field Activities - Extension Request - Swiss Valley Cleaners

Daniel,

While it is key to determine the full extent of the contamination, it is understood that the site has recently been focused on remediation startup; as such I have I extended the due date until July 22, 2016. Geotracker has been updated to reflect this extension.

Subject: Offsite Assessment Field Activities - Extension Request - Swiss Valley Cleaners

Hey Mark,

Apparently, the approved offsite assessment to the west of the former Swiss Valley Cleaners site fell off the wayside. As I was starting to get the remediation stuff going for the site I realized that we still haven't completed the offsite vapor assessment that was approved back in December 2015. As such I am requesting an extension for completion of the work. We are kinda slammed right now so I was hoping maybe we can get it in by the end of July 2016, which should be doable.

Let me know if this will be ok or if it needs to be further expedited.

Regards,

Daniel Villanueva
