Hi Jerry,

Latest update on the soil import/reuse at the site is this: the contractor is not currently anticipating the need to import soil from off site. Soil that will be excavated from beneath Building A (previously tested in-situ by Ninyo & Moore) will be reused on site instead. The Building A excavation is scheduled to begin this Wednesday December 24 and resume on December 29 until completed.

Thanks,

Peter D. Sims, LEED AP

Hi Peter,

A revised report submittal date of February 15, 2015 for case RO0003122 is acceptable.

Regards,  
Jerry Wickham  
Alameda County Environmental Health

Hi Jerry,

Because of the recent rains I have not been able to get the contractor to commit to a date to complete activities which will be included in our report. In case the rain continues for a prolonged period, I will say that we will be able to provide our report by February 15th.

Thank you,

Peter D. Sims, LEED AP
