Barney,

I believe we covered all the bases. See comments below. Call me if you need further information.

Rod Freitag, Environmental Program Manager

Alameda County General Services Agency, TSD
1401 Lakeside Drive, Rm. 1115, Oakland, CA 94612
Ph (510) 208-9522 | Fax (510) 208-9530 | QIC 26023

Subject: Copy of Incident Report for Fire/Spill at Juvenile Hall, 2600 Fairmont Dr., San Leandro

Messrs. Singh and Freitag: Ms. Garcia-La Grille noticed a significant amount of hazardous waste disposed in 2012 presumed associated with the fire and spill cleanup of the tractor trailer accident which occurred at this site on December 10, 2012. Please send our office a copy of this incident report (**PSI report attached**) and confirm those HW manifests associated with the cleanup (**copies of manifests attached**). One concern is the location of the excavated diesel contaminated soil. Was a Cal EMA/OES report completed for this incident (**No. The spill did not rise to the level of a reportable, significant spill based on my understanding of the regulations. Far less than 42 gallons of diesel fuel spilled and no bodies of water were threatened.**)

Thank you,

Barney M. Chan
