Dear Mr. Wickham,

As we discussed, the Public Storage Newark facility is still under construction. The slag affected soil is and has been covered however, by the new building slab, and by gravel or clean imported soil in the parking areas. The parking areas are scheduled to be paved in mid December 2015, but the new landscaping will not be finished until the end of construction, which is currently scheduled for late March 2016. Therefore we cannot submit a full CAP completion report by November 13, 2015 as requested in your February 19<sup>th</sup>, 2015 CAP approval letter.

We request an extension of the CAP completion report until April 29, 2016, which is approximately one month after the currently scheduled construction completion date. Please let us know if this is acceptable.

Thanks

Andy
