(Global ID # T10000005974); DeLong Oil, 1716 Webster Street, Alameda, CA 94501

Dear Responsible Parties:

Alameda County Environmental Health (ACDEH) has reviewed the case file, including the October 31, 2017 *Soil Vapor Sampling & Off-Site Soil & Groundwater Investigation Report*, submitted on your behalf by Compliance & Closure, Inc. Thank you for submitting the report. The data contained within the report has moved the site closer to closure, and consequently ACDEH will undertake a review of the entire associated case file for the site for potential case closure.

Based on the review of the case file ACDEH requests that you address the following technical comments and send us the documents requested below.

TECHNICAL COMMENTS

1. **List of Landowners Form** – In anticipation that closure of the site may be appropriate after an internal review, ACDEH requests the submittal of the *List of Landowners Form*. Pursuant to Section 25297.15 (a) of the California Health and Safety Code, ACDEH, the local agency, shall not consider cleanup or site closure proposals from the primary or active responsible party, issue a closure letter, or make a determination that no further action is required with respect to a site upon which there was an unauthorized release of hazardous substances from an underground storage tank subject to this chapter unless all current record owners of fee title to the site of the proposed action have been notified of the proposed action by the primary or active responsible party. ACDEH is required to notify the primary or active responsible party of their requirement to certify in writing to the local agency that the notification requirement in the above-mentioned regulation has been satisfied and to provide the local agency with a complete mailing list of all record fee title owners.

Therefore, to satisfy this requirement, please complete the enclosed *List of Landowners Form*, and mail or email it back to ACDEH by the date identified below.

2. **Semi-Annual Groundwater Monitoring** – Please continue to conduct semi-annual groundwater monitoring and sampling events in coordination with groundwater monitoring and sampling for the case associated with the diesel UST at the site (RO0003235). Consistent with the State Water Resources Control Board determination, please distribute associated costs with each case. Please submit reports by the dates identified below.

SUBMITTAL ACKNOWLEDGEMENT STATEMENT

Please note that ACDEH has updated Attachment 1 with regard to report submittals. ACDEH will now be requiring a Submittal Acknowledgement Statement, replacing the Perjury Statement, as a cover letter signed by the Responsible Party (RP). The language for the Submittal Acknowledgement Statement is as follows:

"I have read and acknowledge the content, recommendations and/or conclusions contained in the attached document or report submitted on my behalf to the State Water Board's GeoTracker website.

Please make this change to your submittals to ACDEH.

TECHNICAL REPORT REQUEST

Please upload technical reports to the ACDEH ftp site (Attention: Mark Detterman), and to the State Water Resources Control Board's Geotracker website, in accordance with the specified file naming convention below, according to the following schedule:

Online case files are available for review at the following website: <http://www.acgov.org/aceh/index.htm>.
