Hello Jim and Doug:

Thank you for the status update. Please ensure that the revised report includes responses to all the Technical Comments described in the February 5, 2015 Directive Letter. I look forward to receiving the report on or about December 4, 2015.

Sincerely,

Karel Detterman, PG  
Hazardous Materials Specialist

Hi Karel,

We completed the boring on November 6 and are waiting on lab results. Of interest is that we encountered hard bedrock sandstone at about 2 feet and had refusal at 6 feet. No field evidence of hydrocarbon impacts was noted in the bedrock sandstone.

We should be able to complete the report by approx.. December 4 .

Thanks

Jim

Hi Karel,

With this email, we wish to request an extension of time until May 22, 2015 to complete the tasks requested in your February 5, 2015 letter. I apologize for the delay; we had a couple other projects that became sort of emergency "drop everything" projects; however, we will make sure to meet the May 22 deadline.

Thanks  
Jim
