

7/05/2016 Phone Log- RO3148 EMBL LLC Tank, 1501 Martin Luther King Jr. Way, Oakland

Duration: Approximately 15 minutes

Received a phone call from Frank Hamedi regarding GeoTracker denials. Three submittals were denied- He did not understand the reasons for the denials for the well destruction report, the well sampling forms, and the GEO_WELL.

I walked him through the reasons for each and he appeared to understand what I was looking at and how to respond. Mr. Hamedi said he would look into it. He also indicated that he was able to track down a missing EDF and uploaded it to GeoTracker today.
