Subject: RE: Former Four Seasons Cleaners, 13778 Doolittle Drive, San Leandro

Julie and all,

I have extended the May 26th due dates (RDIP and WP) to August 18th, and the June 30th (REM) due date to September 22, 2017. The dates have also been updated on Geotracker. Should you need additional time for the REM due to difficult field conditions, please let me know, and an additional extension can be provided.

Also, ACDEH has not received any responses from the public notification which was mailed on May 15th. Have you received any responses?

Mark,

We have the remediation work at the referenced site scheduled to start July 11, 2017. Also, I have not heard back from you regarding the schedule of technical reports you requested in your March 17, 2017 *Conditional Partial Interim Remediation Approval and Request for Work Plan* letter. There were due dates of May 26 and June 30, 2017. Since data from the work we are conducting will be important to complete these reports and since final verbal approval from your office was not received until May 25, 2017, the dates should be moved forward.

Thank you,

Julie Avanto
