INSPECTION NOTES

Barbara Jakub and Rob Weston onsite Wednesday 11/26/14 to respond to a reported diesel spill. A Walgreen's truck went over the edge of the road on I-680 on Saturday 22, 2014. CO0015029

Truck carrying diesel involved in accident on northbound 680- went off the side of the freeway in Sunol, Ca 94586 09:30 ACDEH meets with Mr. Norman Sanchez of Clean Harbors at the site where the soil is being held. Mr. Sanchez informs us that Curtis from ACWD was on site earlier this week. He was concerned for potential diesel spill reaching Niles creek which is a source of water for ACWD.

SFPUC also demonstrated concern for an irrigation well they have nearby the channel. Due to the distance from the diesel spill, the fact that they are not currently using the well during the rain, and that the diesel was cleaned up before it had a chance to penetrate very far into the ground, it is unlikely that the well has been impacted. Periodic sampling for diesel and a review of the depth of the screen and well seal would confirm this hypothesis if there is a need.

Clean Harbors removed all diesel and contaminated soil from culvert and left a boom in place to remove any remaining diesel from entering Niles Creek.

Clean Harbors cleaned out ~1/4 mile of channel beneath freeway. The channel is lined with concrete. Not all areas contained diesel so only the areas with diesel were cleaned.

Mr. Sanchez states that he was onsite at 11:30 a.m. after being notified at 10:30 a.m. Saturday 11/22/14  
Clean Harbors obtained a number for a temporary EPA ID number CAC002794766 for waste disposal.

Walked up the V-culvert where truck went off of Rt. 680- one small area approximately 2 by 4 by 1.5 ft deep was excavated to remove the diesel that was present from the truck  
Since it was raining, diesel was on top of the water and did not cause a lot of contamination on the bottom of the culvert. However, there were diesel contaminated leaves in the culvert that had to be removed.  
One 20 yard bin containing trees, logs, leaves was left on-site near truck accident location.

ACDEH requested a report from Mr. Sanchez.

Chris,

Justin Garman contacted the lab made a mistake and they are going to run separate analysis on each of the water and soil samples. We should have the results tomorrow morning.

Thank you,

Dave

**Subject:** Details of fuel spill in

Robert,

I am writing in regards to the fuel spill that occurred last Saturday in Sunol, CA on I-680 NB north of Highway 84. The case number is 14-6676.

As a follow up to our previous conversations, a Walgreens tractor and trailer hit a bump and went over the embankment. The tractor's fuel tanks were ruptured upon impact which the rain then caused to disperse the fuel. We lost approximately 125 gallons due to the accident. We dispatched our environmental vendor, Clean Harbor, to start the clean-up process that morning. Some of the fuel did make it into the feeder creek in the area of the accident. Clean Harbor was able to finish the clean-up process last Friday and are working today with the San Francisco PUC for soil and water samples. We will have a technical report shortly from them which I will forward to you. Please let me know if you have any questions.

**Be Well,  
Christopher**

Robert,

I am writing in regards to EPA case 14-6676 and our conversation over the phone. We dispatched our environmental clean-up vendor Clean Harbor to the site of the accident and fuel spill.

The site person for Clean Harbor is Norman at 510-520-3525. I was told that they would finish the clean-up this afternoon.

The account manager for Clean Harbor in which I have been in contact with is:

**David Sato**  
Account Manager  
Clean Harbors  
4101 Industrial Way,  
Benicia, CA 94510  
Office: 707.747.6699  
Mobile: 510.418.1141

Please let me know if you need anything else.

**Be Well,  
Christopher**

**Christopher Akins, MBA**  
Manager, Supply Chain  
Walgreens Woodland Distribution Center  
P: 530-406-7771  
M: 772-341-6679

Every day I help people **get, stay and live well.**
