Mr. Kidd,

Thank you for your comment on the proposed soil remedial action at 2868 Hannah Street in Oakland. Following review of all comments from the public and Alameda County Environmental Health, the responsible party has modified their plans for soil remediation at the site. I have attached a document entitled, "Soil Remedial Action Plan Amendment," dated January 8, 2016, which describes the revised plan for soil remedial action. The plan includes excavation and off-site disposal of contaminated soil. On-site aeration of contaminated soil is no longer considered as part of the remedial action. We have requested that the responsible party prepare a Fact Sheet that describes the modified plans. After review and approval by Alameda County Environmental Health, the Fact Sheet will be distributed for public comment at a future date. The entire case file can be viewed over the Internet on the ACEH website (<http://www.acgov.org/aceh/lop/ust.htm>) or the State of California Water Resources Control Board GeoTracker website (<http://geotracker.waterboards.ca.gov>).

I will be retiring from ACEH on January 22, 2016 and Ms. Dilan Roe will be the case worker responsible for this case after January 22, 2016. Therefore, if you have any questions in the future regarding this case, please call Dilan Roe (510) 567-6767 or send her an electronic mail message at dilan.roe@acgov.org.

Regards,

Jerry Wickham

Subject: remediation plan

Hello Jerry Wickham

I read an Alameda County HCS fact sheet on environmental remediation regarding a proposed development at 2868 Hannah St. in Oakland. It said the soil is impacted with PCE and proposed a cleanup procedure. The fact sheet gave two links to full a full report called "Revised soil remedial action work plan". Neither of the two links, one to an acgov site and the other to a geotracker site, provided the report. If you could provide me with a correct link I would appreciate it.

Ray Kidd
