Sheryl,

Thanks for the email. I will keep you posted once this gets resolved. At this time I don't have all the reports, let alone funds to allow a review of those reports. A kickoff meeting is tentatively scheduled for next week, most likely on Wednesday, but it will take a bit of time afterwards to get up to speed on the site and understand it. I am aware the developer would like to move ASAP, so will prioritize as quickly as I can within a number of deliverable dates I currently have for other sites.

If you have questions, let me know.

Mark Detterman

Mark,

The site would like to proceed with demolition of the building which will not disturb the soil. Do you have any issues with them proceeding with this work?

Thanks,

Sheryl Skillern

Senior Hazardous Materials Inspector

City of Oakland Fire Department

Sheryl,

Alameda County Environmental Health has opened a Site Cleanup Program case to work with Terramar and their consultant to address the solvent contamination in the dry cleaner area for the site at 51st and Broadway. The case worker who will be reviewing the site for Alameda County will be Mark Detterman (510-567-6876).

Regards,
Jerry Wickham

Stuart,
As per my telephone message, please advise Jerry on over site by Alameda County. At this time we can only advise on safety requirements when remediation begins. The workers need to be advised on the health hazards associated with all of the potential contaminants. The area needs to be monitored for VOC and LEL when work is being performed.

Sincerely,
Sheryl Skillern

Thanks Sheryl.

Jerry – I have sent you a link to a box acct where you can download the file as well. Please let me know if you have any questions.

Thanks,

Sheryl,

The fax should come over in 10-15 min. Also if you like I can add your contact at Alameda County to the box acct. Just let me know what their email is.

Thanks,

Stuart,
Can you please fax me the document? I can read it thru the link but wanted to get Alameda county's opinion on additional remediation recommended. I was not able to forward or copy the document from the link.

Thanks,

Subject: 51st and Broadway Phase II ESA

Hi Sheryl,

Thank you for calling back this afternoon. The Phase II ESA excerpt for our project at 51st and Broadway is 158 pages long and has a file size of 32 MB. The link below is to a box account where you can download the file, however if you would prefer a fax or alternate means of deliver please advise.

As discussed this excerpt is a portion of our entire Construction Management Plan currently under review by Bill Quesada. He has advised us to contact you so that you can vet the proposed remediation plan. Please review and advise of our next steps.
