Anne,

Thank you for the conference call today to discuss the case status and project schedule. Alameda County Department of Environmental Health (ACDEH) notes the groundwater monitoring well network for the subject site has been sampled four times for the period May 4, 2017 through September 15, 2017 in order to establish a baseline of dissolved phase concentrations of potential chemicals of concern (PCOCs). ACDEH requests an additional round of groundwater well sampling prior to well destruction.

Thank you for your cooperation. ACDEH looks forward to working with you and your consultants to advance the case toward closure. Should you have any questions regarding this correspondence or your case, please call me at (510) 567-6764 or send an electronic mail message at keith.nowell@acgov.org.

Regards,
Keith Nowell
