**INVITATION TO COMMENT-POTENTIAL CASE CLOSURE**

**MAIN STREET PROPERTY  
927 MAIN STREET, PLEASANTON, CA 94566  
FUEL LEAK CASE RO0003199  
GEOTRACKER GLOBAL ID T10000008158**

November 13, 2017

The above referenced site is a fuel leak case that is under the regulatory oversight of the Alameda County Department of Environmental Health (ACDEH) Local Oversight Program for the investigation and cleanup of a release of petroleum hydrocarbons from an underground storage tank system. Site investigation and cleanup activities have been completed and the site has been evaluated in accordance with the State Water Resources Control Board Low-Threat Closure Policy. The site appears to meet all of the criteria in the Low-Threat Closure Policy. Therefore, ACDEH is considering closure of the fuel leak case. Due to the presence of residual contamination not addressed in the Low-Threat Closure Policy, a Site Cleanup Program case has been opened to address this contamination.

The public is invited to review and comment on the potential closure of the fuel leak case. This notice is being sent to the current occupants and landowners of the site and adjacent properties and other known interested parties. The entire case file can be viewed over the Internet on the ACDEH website (<http://www.acgov.org/aceh/lop/ust.html>) or the State of California Water Resources Control Board GeoTracker website (<http://geotracker.waterboards.ca.gov>). Please send written comments to Dilan Roe at the address below; all comments will be forwarded to the responsible parties. Comments received by January 12, 2018 will be considered and responded to prior to a final determination on the proposed case closure.

If you have comments or questions regarding this site, please contact the ACDEH caseworker, Dilan Roe at 510-567-6767 or by email at [dilan.roe@acgov.org](mailto:dilan.roe@acgov.org). Please refer to ACDEH case RO0003199 in any correspondence.
