Dear Mr. Bowes,

Alameda County Department of Environmental Health (ACDEH) is the lead oversight agency for the subject case. As such, subsurface investigations are required to be performed both with our knowledge *and* our approval. ACDEH staff has been made aware of a potential geotechnical investigation at the subject property. ACDEH has not received a work plan for such work.

If field activities are planned, please submit a work plan of proposed subsurface work for our review. ACDEH will review and comment on the work plan. Additionally, please have your environmental consultant review the scope of work and have them provide a letter documenting that the advancement of the borings will not cause cross contamination at the site.

Thank you for your cooperation. Should you have any questions regarding this correspondence or your case, please call me at (510) 567-6764 or send an electronic mail message at [keith.nowell@acgov.org](mailto:keith.nowell@acgov.org). Please note that I will be out of the office the week of March 19<sup>th</sup>, 2018.

Regards,  
Keith Nowell
