Subject: RO0003213_Investigation Report Deadline Extension

Hi Keith

Thank you for meeting with Tom Reed and me last week on the data for 24747 Clawiter Road in Hayward, CA.

We are currently obtaining data on underground utilities at the Site to understand potential migration pathways for soil gas. As noted in ACDEH's directive data December 12, 2017, a report presenting the investigation results was to be submitted by March 12, 2018. At this time I would like to request an extension until April 9, 2018 for report submission so that we can include the utility survey data in the report.

Please let me know if you have any questions or need additional information.

Thank you

Lita
