Good Morning Josh,

Thank you for the document submittals to GeoTracker. ACDEH has reviewed the 58 GeoTracker file submittals and received 54 of the submittals.

GEO_BORE for B-12 was denied as it does not agree with the bore log in the report;

GEO_WELL # ending in 0195 denied pending submittal of well installation/sampling report;

EDFs ending in 3568 & 8573 denied pending resolution of concentration data- data in report table does not match data in the EDFs. If the report(s) are in error, they will need to be resubmitted as amended reports with language indicating the reason for the amended status, and submitted with a revised date.

Please note that EDF # ending in 1799 was denied in error and has been received.

Regards,
Keith Nowell
