Hi Brent,

Thanks for the news and sorry to hear of their problems. I've had several sites requesting extensions due to the fire for various reasons this morning.

I've updated Geotracker to reflect an extension to January 18, 2019 in order to provide some added flexibility due to the fire, as well as the holidays.

Good luck out there.

Subject: RE: Schedule of Data Gap Investigation Drilling/Sampling - 170 Woodland Way, Piedmont, CA (ACDEH Fuel Leak Case No. RO0003256) DRILLING POSTPONED

Mark,

We recently received notice from EnProbe Drilling Services (located in Oroville, CA) that they will have to postpone all their jobs this week (& possibly next week) due to the Paradise CAMP FIRE that is now nearing Oroville. We will be postponing the drilling originally scheduled at the subject Site on 11/14/18 & 11/15/18. I have copied Alameda Public Works Agency to postpone the Drilling Permit W2018-0962 accordingly, and will provide all an update when we will re-schedule the work. We apologize for any inconvenience.

Due to the postponed field drilling work, we also request an approximate 1-month extension for submittal of the *Draft Corrective Action Plan and Site Investigation Report*, originally due on 12/7/18 – See ACDEH September 26, 2018 Conditional Data Gap Work Plan Approval Letter.

Thank you,

Mark,

On behalf of Marcia Redford, Wheeler Group Environmental LLC, in collaboration with EnProbe Drilling Services is scheduled to conduct drilling/sampling at the subject property next Wednesday/Thursday, 11/14/18 & 11/15/18. All work will be performed in accordance with Wheeler Group's August 10, 2018 *Data Gap Investigation Work Plan*, conditionally approved by the ACDEH in its most recent letter dated 9/26/18. We have acquired an approved drilling permit from Alameda County Public Works Agency for the proposed site investigations borings. Please contact us with any questions or concerns.
