Veronica,

Thank you for the inquiry. As the plume delineation question has not been definitively answered, I request the sampling event include TPH.

Regards,
Keith Nowell

Hi Keith – I am currently coordinating the ground water sampling for the above referenced project and just wanted to confirm that DEH would be requesting (1) sampling of the 12 on-site and adjacent wells (RW1, RW2, RW3A, MW6B, MW6E, MW6F, MW6H, MW6G, MW6Ka, MW6Kb, MW6La, and MW6Lb) and (2) the full suite of VOCs, including halogenateds, for analysis. Will analysis of petroleum hydrocarbons also be requested?

Thanks in advance for any information you could provide,
