**Subject:** TOC 063 / 30 day HVDPE event  
**Attachments:** image001.jpg; TOC 063 FIG.pdf

To All,

Please be advised that CalClean Inc. will be onsite at TOC 063 located at 6125 Telegraph Avenue, Oakland, California, on Tuesday **September 14, 2010** through Wednesday **October 13, 2010** to conduct a **thirty (30)** consecutive day (24 hours/day) mobile HVDPE event using well MW-4 as an extraction point. The field activities will involve a truck mounted HVDPE system and a 2,600-gallon poly tank that will be onsite during the 30-day event. CalClean will make every effort to minimize disruption to regular site activities.

Please see the attached figure indicating the proposed location of the truck mounted mobile HVDPE equipment and 2,600-gallon poly tank.

Regards,
