**Re: Former Thrifty Oil Co. Station #063
6125 Telegraph Avenue
Oakland, California 94502**

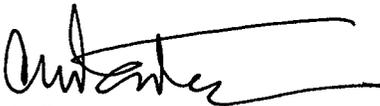

**Subject: Notification of Intent to Proceed with the Proposed Five Consecutive (24-hour/day)
Multi-Phase Extraction Event**

Dear Mr. Plunkett:

On September 2, 2008, Thrifty submitted a *Remedial Action Plan Five Consecutive (24-hour/day) Day Multi-Phase Extraction Event Report* (RAP) for former Thrifty Oil Co. (Thrifty) Station #063 located at 6125 Telegraph Avenue, Oakland, California which proposed a 5 consecutive day (24-hour/day) MPE event with combined soil vapor and groundwater extraction from well MW-4. In a letter dated December 29, 2008 (the ACHCS letter), the ACHCS indicated that they would not consider the RAP until several outstanding issues were resolved and requested that Thrifty prepare a workplan. On February 18, 2009, Thrifty submitted an *Additional Site Assessment Workplan* (ASAW) but to date has not received a response from the ACHCS. Thrifty believes that the ASAW addressed all the outstanding issues noted in ACHCS letter. Thrifty therefore respectfully requests that the ACHCS provide approval to proceed with the scope of work outlined in the RAP. If Thrifty will not receive a response to our RAP by April 10, 2010, we will consider approval by default, and will proceed with the implementation under "60-day rule" pursuant to authority granted in California Code of Regulation, Title 23, Division 3, Chapter 6, Section 2722(e).

Should you have any questions regarding this report, please contact Simon Tregurtha at (562) 921-3581 Ext. 260, or myself at Ext. 390.

Respectfully submitted,

Chris Panaitescu
General Manager
Environmental Affairs
