**Cc:** Roe, Dilan, Env. Health  
**Subject:** Additional Meeting Followup; Path to Closure Wording - RO42 & RO43 6601-6603 Shellmound St., Emeryville

Dwain, Todd, and Michelle,

This is a second email in order to followup discussions at the meeting of January 23, 2014.

At the meeting, ACEH committed to investigate the Path To Closure wording on Geotracker and determine if it could be changed. We have investigated the situation and have found that the wording is standard SWRCB wording based on standard check box entries and cannot be changed; however, ACEH has revised the page on Geotracker and has placed wording in the text box that indicates ACEH considers the groundwater plume to be stable.

Let me know if you have questions.
