Dennis, Below is a screen shot of all the e-reports we have scanned or received via ftp. There were 2 reports uploaded this year, both QMRs dated January & July 2007. Maybe you are referring to the SWI dated 12/07/06? Also, the case files we have scanned so far plus ftp submittals are all available on our website, so you can check to see that your reports are in our files. Donna

LOP e-files on internet - <http://www.acgov.org/aceh/index.htm>

Ms. Drogos,

Thank you for calling back this morning I appreciate the time that you spent researching the reports for the site on Webster Street.

Could you do me a favor and let me know if you received the Soil Boring and Site Assessment Report that Delta submitted to your office on February 19, 2007 for the site located at 3420 35th Avenue in Oakland. If not, let me know and I will have our project assistant upload it again to your files. In this report Delta made some recommendations for additional work at the site.

Thanks,

Dennis S. Dettloff, PG
