Uploaded report in 12/06, Don CW, RP would like to proceed.

DPE asmyotic, 40,000 ppb TPH still present, think trapped in smear zone, proposing addtl investigation to locate

Can plan be reviewed?

I will look at reports & see if can accomdate review request.

Was with ETIC, plan March last year  
Plan rejected

Told him will log site, Don just left & I have to prioritize his caseload to address high priority sites. This site is not an immediate high priority. Will have to get back to him or RP with anticipated review schedule, do not have timeframe at this point.
