Importance: High

Hi Nathan,

Thanks for the heads up. From our conversation this morning, it sounds like OHA will be excavating tomorrow Friday Dec 31 in the debris pit, and potentially in the used oil excavation areas. I will not be able to make tomorrow's work, but should request substantial photographic documentation of the excavation. Hopefully CRA will be present to observe the work, but if not then OHA's contractor should provide that documentation. I'm looking for some level of comfort that impacted zones and debris has been adequately removed. I'll give you a call shortly to make sure we connect on this issue.
Best,

Mark Detterman

Subject: 9-0020 1633 Harrison Street Excavation RO# 0143

Mark,

I just received notification that the redevelopment/construction activates at the former Chevron Station 9-0020 located at 1633 Harrison Street in Oakland will take place on January 3, 2011. We were supposed to receive more advanced notification than this, but we did not. So the excavation of the dribs pit and/or the excavation in the area of the former used oil UST could start on Monday January 3, 2010. I am meeting the foreman onsite tomorrow so I should have a better understanding of the schedule after I meet with him.

If you could give me a call I would appreciate it.

Thanks,

Nathan Lee, P.G.
