**Re:** 1723 Fruitvale Avenue Oakland, CA

Part 1 of 2

This sketch shows the former auto transmission shop.

Part 2 of 2

The scope of the Proposed Sampling Plan is based on Alameda County Health Care Services Agency requirement in its recent letter dated October 6, 2000. The County requires 1) re-sampling beneath SB-4 where the deepest samples tested were 5 feet and 10 feet bgs and 2) a downgradient ground water sample.
