Hello Jonathan,

Keith has many cases in his review queue and makes every effort to review submittals within 60-days. If you desire, you may complete the work without approval. However, there is a possibility that portions of or all of the proposed scope of work may not be accepted and costs associated with the work that work may not reimbursed by UST Cleanup Fund, if the site is in the UST Cleanup Fund. Since the work plan was submitted on August 7, 2017, please reconsider rescheduling the fieldwork to allow Keith time to complete his review within the 60-day review window.

Please feel free to contact me should you have any questions or concerns regarding this email message.

Sincerely,

Paresh C Khatri

Paresh,

I am trying to get a permit approved for some work we have scheduled at one of Keith Nowell's sites. However, it appears that he did not approve the work plan before his leave. We submitted

the work plan on August 7 in response to a letter from Keith dated June 2, both are attached. The work is currently scheduled for September 13, the day his out of office reply says that he will return. Is there any way we can get the work plan approved in the next few days? Or would it be better for us to reschedule again.

Thank you,

Jonathan Fillingame | Project Professional

Keith,

I see that the permit for the work associated with the site: 449 Hegenberger Road is not yet approved. Is there a problem with the work plan with we submitted on August 7th. Please let us know if there is anything we need to do. We rescheduled the driller from August 23rd to September 13th, as we were hoping to have an approved permit by now.

Thank you,

Jonathan Fillingame | Project Professional

Wells,

I applied for this permit on 8/7/2017 and answered some questions about it on 8/11. Will it be approved soon. I need to know today so I can decide whether to delay the project that is scheduled for 8/23.

Thank you,
