Dacre,

You need not submit a work plan for an off-site investigation. However, please submit the focused site conceptual model by the date specified in our directive letter dated June 20, 2018.

Regards,
Keith Nowell

Subject: 449 Hegenberger Road, Oakland Fuel Case #RO0000219

Keith – Antea Group is requesting a 30-day extension for submittal of the workplan for the off-site borings, as the State Board is in the process of reviewing the site for LTC closure.

We have completed the data review for the hoist and waste oil tank, but are on-hold for the off-site work until the final review by the state.

Thanks,
