Subject: Re: ACEH Correspondence for RO257

Dear Mr. Detterman,

Let me be very clear on this point so no one is confused-- contrary to the false representation in your letter, I never terminated any work and any statement to this effect is completely false. Sierra Environmental is still the contractor on this job and they have not been relieved in any manner as a matter of law.

I did object to "work" occurring on the property in a trespassory manner without the notification, knowledge and consent of the owner of the property, a reasonable response of any property owner to malicious behavior which injures their property. Further, the owner of Sierra Environmental indicated that you told him to engage in the work (namely drilling four wells) without the owner's consent.

I agree with your transfer to the Regional Water Board in furtherance of the stated goal to "move sites to closure."

Regards,
