I am back from vacation and wanted to touch basis in case any questions remain for me. I've had a chance to review the various emails and it appears most of conversation needs to occur between your client and Mr. Garg; however, let me know. Would it be appropriate to include you and your email address in future correspondence? Would you also have Mr. Som Gupta's email address for future correspondence, or Mr. Garg's as well? Please call with any questions.
