Mr. Wickham,

On behalf of Atlantic Richfield Company (ARC – a BP affiliated company), Broadbent & Associates (Broadbent) hereby requests an extension for the Vapor Intrusion Investigation Report due on June 20, 2014 for LUFT Case No. RO 309 located at 712 Lewelling Boulevard, San Leandro, California (the Site). The original due date for this report was presented in a letter from the Alameda County Environmental Health Agency (ACEH) dated February 20, 2014. The extension is being requested due to the fact that soil vapor sample analytical results were only recently received. Sampling did not occur until approximately 3 weeks after probe installation, largely to allow equilibration time for the new soil vapor probes in order to ensure high quality samples. We hereby request a new report due date of July 18, 2014.

Please feel free to call me if you would like to discuss this Site further.

Thank you,
Kristene Tidwell, PG, CHG
Senior Hydrogeologist
