Subject: Historical Aerial Photographs for area surrounding ARCO Station 601, 712
Lewelling Boulevard, San Leandro, California.

Dear Mr. Jang:

On behalf of ARCO Products Company (ARCO), RESNA Industries Inc. (RESNA) has acquired historical photographs of the area surrounding the subject site. The photographs were taken in the time interval between 1947 to 1988. We have labeled the photographs showing the ARCO site and other properties we have been able to identify in the immediate vicinity of the ARCO site. To date, RESNA has not been able to obtain any information concerning the former Texaco site, which was apparently abandoned between the 1969 and 1979 photograph dates. Of particular interest is the 1959 photograph which shows the area currently occupied by an apartment complex located at 724 Lewelling Boulevard (Sullivan Property) being used in an apparent non-residential manner.

We have also included a site vicinity map and a generalized site plan (Plates 1 and 2) of the ARCO site to assist you in orienting the photographs. A North arrow is shown on the Site Vicinity Map and Generalized Site Plan.

Mr. John Jang, RWQCB
