Subject: Site Status Update for ARCO Station 601, 712 Lewelling Blvd., San Leandro, California.

Dear Mr. Seery:

This letter provides an update on investigation and remedial activities conducted for the above-referenced site. This update covers site activities performed during July 1992, and site activities anticipated for the month of August 1992.

July 1992 Activities

- Performed groundwater monitoring.
- Performed monthly product removal from wells MW-1, MW-3, and MW-5.
- Continued with design and preparation of plans and specifications for a groundwater remediation system at the site.
- Submitted drilling permit application to drill three offsite groundwater monitoring wells, two on Lewelling Boulevard and Washington Avenue, and one private property adjacent to ARCO site.
- Scheduled drilling on the private property adjacent to the site for August 7, 1992.
- Called USA, and a private locating company, to locate utilities in the area of the proposed well.

- Initiate work plan addendum preparation for additional phase work to be performed at site.

Work Anticipated for August 1992

- Continue monthly groundwater monitoring.
- Submit Draft Second Quarter 1992 Groundwater Monitoring Report to ARCO for review.
- Monthly removal of floating product will continue.
- Continue with design and preparation of plans and specifications for a groundwater remediation system at the site.
- Continue with attempts to gain offsite access from private owners to install offsite monitoring wells and submit encroachment permit to the City of San Leandro to drill and install two offsite wells on city streets.
- Drill and install one offsite well on private property adjacent to the site.
- Develop the new offsite well.

If you have any questions or comments regarding this letter, please call us at (408) 264-7723.

Sincerely,
RESNA Industries Inc.

Joel Coffman
Project Geologist
