Phone call with Al Avendano of Sacramento Stucco 209-239-2926 and cell 510-325-3606. He purchased property from original owner. Not in UST Cleanup Fund and will have difficulty funding investigation and cleanup. Has retained Stellar Environmental. Stellar has prepared a report with groundwater sampling results that recommends 8 soil borings. ACEH response will be based upon contents of report, recommendations, and review of case file. Site is in an industrial area. I advised him to review ability to get into the Cleanup Fund, may require earlier RP to transfer USTCF status to him. Mr. Avendano believes his USTs were originally installed by U.S. Army. I indicated that RP status goes back to the UST release that resulted in the contamination.
