Subject: 2855 Mandela Parkway Current Status

Mr. Khatri,

This is an update of the current status of work at 2855 Mandela Parkway (Site).

We have recently been onsite to examine vapor points previously installed, for their current serviceable condition and whether they are viable to be used in an upcoming indoor air vapor study. Based on the results of this recent Site visit, we will be working with our client to put together a scope of work for addressing items listed in your June 6th letter.

Respectfully,

Greg Johnson, REA I
