Subject: Site 1156 - 4276 MacArthur Boulevard, Oakland - Further Assessment Report - Due Date Extension

Hi Jerry!

This is difficult for me.

I am requesting an extension to the due date for the Further Assessment Report. The report is due September 30, 2010. The installed soil vapor wells at this site are to be sampled in mid-September (tentative). The vapor wells need to sit for a longer period of time due to the tight clays. Vapor sample results will take approximately 8 to 10 days.

Another reason for the request is that this site may transition to Chevron in the very near future. Meetings are currently on-going with no substantial information coming out of these meetings except that a number of sites, if not all sites, will be transitioned to Chevron.

The extension date that I am requesting is October 29, 2010.

If you have any questions, please call me.

Jim
