Barbara,

I am trying to locate the email address for you. If you like to briefly discuss what ARCADIS would like to do I am available this week for a call. The best way to reach me is my cell 925-202-7948 the next few days.

Kathy

That works for me except I am in the process of reviewing the addendum now. If you have an addendum, we should talk about it before I complete the approval letter.

On another note, can you please provide me with Sam Koka's e-mail address?

Barbara,

would you be available on Wednesday June 29 at 2Pm for a conference call with Roya Kambin (Union Oil) and ARCADIS staff? we will be able to discuss the path forward, our proposed addendum, vanadium and when you can expect deliverables to expedite the implementation.

Please let me know if that time slot works for you.

Thank you

Kathy

Thanks I'll look that over. But what I still need is an explanation of what the vanadium results means on Hex chrome. I guess Antea Group had discussed this with someone from UC Davis but I'm not so sure that they included a detailed discussion on how the data was going to be used or evaluated.

Barbara,

TRC did complete the sampling for 2Q 2011 on April 26. Antea uploaded the report on June 13. Vanadium was analyzed both total and dissolved. I am including the report in this email for your use. There were detections of total Vanadium in all wells sampled but the dissolved was below laboratory reporting limits (3.0 ug/L). Please let me know if you need further information. I will be emailing you separately to set up a call regarding the implementation.

Thank you again

Kathy

Kathy,

Was the second quarter monitoring event performed yet? One additional analyte that was proposed was vanadium. Wondering if that was analyzed for in this past sample round.

Dear Ms. Jakub,

I would like to take this opportunity to introduce myself and Aaron Svitana (ARCADIS) as the new environmental consultants representing the above referenced site. I understand from Antea that a Remedial Action Plan (RAP) addendum was submitted on June 8, 2011. Going forward ARCADIS will be handling the implementation of the RAP and the addendum. We would like to request a meeting or conference call to discuss the implementation of the RAP as well as make sure the agency's concerns have been addressed with the current addendum submittal. I look forward to working with you on this project. Please do not hesitate to contact me with questions.

Thank you for your time

Kathy Brandt
