The above referenced site is a fuel leak case that is under the regulatory oversight of the Alameda County Environmental Health (ACEH) Local Oversight Program for the investigation and cleanup of a release of petroleum hydrocarbons from an underground storage tank system. Chevron Environmental Management Company, the active responsible party for the case, has proposed subsurface air sparging and soil vapor extraction to treat soil and groundwater at 706 and 726 Harrison Street. A compound for the cleanup system will be installed at the southern end of the 706 Harrison Street property. Subsurface piping for the cleanup system would extend north to the 726 Harrison Street property. The performance of the cleanup action will be monitored over time using the estimated mass of petroleum hydrocarbons recovered and groundwater monitoring results. ACEH conditionally concurs with the proposed cleanup action with some requested revisions.

This notice is being sent to the current landowners in compliance with Health and Safety Code Section 25295.40 and the current occupants and landowners of adjacent properties and known interested parties for this site.

The public is invited to review and comment on the proposed cleanup action for the fuel leak case, which is described in a document entitled, "*Remedial Action Plan*," dated April 18, 2014. The entire case file can be viewed over the Internet on the ACEH website (<http://www.acgov.org/aceh/lop/ust.htm>) or the State of California Water Resources Control Board GeoTracker website (<http://geotracker.waterboards.ca.gov>). Please send written comments to Jerry Wickham at the address below; all comments will be forwarded to the responsible parties. Comments **received by July 13, 2014** will be considered and responded to prior to a final determination on the proposed case closure.

If you have comments or questions regarding this site, please contact the ACEH caseworker, Jerry Wickham at 510-567-6791 or by email at jerry.wickham@acgov.org. Please refer to ACEH case RO0000231 in any correspondence.
