RE: 1055 Eastshore Hwy.

Mr. Hahn requested an extension
for the due date of the work plan to
Nov 1 '93, since the rough draft
work plan from All West was not
satisfactory. I granted extension.

7-31-92 Instructed Gary Searling of Alvest Env.
the consultant for owner to have
Resna contact me on Mon 8/3.
Their UGT closure plan left out
a lot of essentials

8-19-92 Brian Lukson of Resna took back the
~~the~~ original closure plan to rework
the required information. He will re-submit
it today.
