Return VM from Kumar from April 20th @ 452pm

This continues a conversation initiated by ENF_L2011-01-26. He has previously sought an extension to investigate what is needed, and this was granted. He has spoke to several consultants and mentioned a \$10,000 figure to research the work, this is too much per his statement. I relay again that this is simply a request to claim the site in Geotracker to preserve his right (as an RP) to seek reimbursement from the state for this expensive work; it is not a request for that work, yet. That will come, but this simply a first step to acknowledge a relationship (that we know already exists). If there are questions, use the 800 (free) number and talk to Hamid at the USTCF. He will look at over the weekend and attempt on Monday.
