RE: Abandoned irrigation well located at 1619 - 162nd Avenue, San Leandro

Dear Ms. DeLemos:

This letter is sent following my review of the June 26, 2000 Aqua Science Engineers Inc. report and report supplement dated July 19, 2000. I have also discussed your case with Mr. Chuck Headlee, San Francisco Bay Regional Water Quality Control Board (RWQCB).

No further investigation of your property will be requested. This decision is based solely upon information presented to this office, with the provision that such information is accurate and fully representative of site conditions.

Please notify this office when the subject well has been properly destroyed under Alameda County Public Works Agency permit. Your notification may be in the form of a copy of the final well destruction report issued by your engineering consultant.

I may be reached at (510) 567-6783 should you have any questions regarding this project.

Sincerely,

Scott O. Seery, CHMM
Hazardous Materials Specialist
