Livermore, CA 94550

Re: No Further Action at 1901 Isabel Ave, Livermore, Livermore, CA

Dear Mr. Fletcher:

This letter confirms the completion of site investigation at the wash pit area located at the above referenced address. Soil samples collected in native soil beneath the concrete vault, the leach pit, and the piping between the vault and leach pit did not contain elevated levels of Total Petroleum Hydrocarbons as gasoline, diesel and motor oil, BTEX, MTBE, VOCs, SVOCs, and the CAM 17 metals.

Based upon the available information and with the provision that the information provided to this agency was accurate and representative of site conditions, no further action related to the potential surface contamination by the former oil/water separator is required.

If you have any further questions concerning this matter, please contact me at (510) 567-6762.

Sincerely,

A handwritten signature in black ink, appearing to read 'eva chu'.
