Richard Makdesi, Stellar,

Owner has buyer, wants letter from ACEH saying they are not the source of pollution.

He found high [C] TCE off-site, doesn't know source.
Looked around site didn't see anything that could be a source.

Told him will make a case & requested oversight deposit \$6k to finance.
If site truly is not a source can remove case from SLIC on Geot & indicate in our database it is not a site.
The reports need to be reviewed & the site evaluated cannot do that without making it a case & RP needs to pay for the oversight. He understands this.
Steven is CW

They will have to do background research work to identify the potential source, if contamination is not theirs. We need that to follow-up & we will need that information before we write letter concurring their property is not a source.

Requested he upload reports to ftp site.
In future, for all new cases, submit reports to both me & Leroy w/cover ltr requesting OFD transfer to ACEH. He will.
