Subject: Fuel Leak Case RO0002968 - Unocal 3072, 2445 Castro Valley Blvd, Castro Valley

Hello All,

Thank you for participating in the conference call today regarding the fuel leak case for Unocal 3072, 2445 Castro Valley Blvd, Castro Valley, Alameda County Environmental Health (ACEH) case number RO0002968. ACEH staff has reviewed the case file including the *Conceptual Site Model and Request for Low-Threat Closure* (RFC) dated December 24, 2012, which was prepared by ARCADIS U.S. Inc. for the subject site. ACEH generally concurs with the RFC that the site may be eligible for closure. ACEH does not concur with the analysis of petroleum hydrocarbons as diesel (TPHd) plume delineation. Additionally, benzene at location EB-6 was not adequately addressed.

Please prepare a Focused Site Conceptual Model Addendum to address the last remaining data gaps, the TPHd plume and the benzene concentration in EB-6. Please upload technical reports to the ACEH ftp site (Attention: Keith Nowell), and to the State Water Resources Control Board's Geotracker website, in accordance with the following specified file naming convention and schedule:

- **January 31, 2014 – Site Conceptual Model Addendum** (file name: RO0002968_SCM_R_YYYY-mm-dd)

Thank you for your cooperation. Should you have any questions regarding this correspondence or your case, please call me at (510) 567-6764 or send an electronic mail message at keith.nowell@acgov.org.

Respectfully,
Keith Nowell
