Suite 250
Alameda, CA 94502-6700

Subject:

Case Closure, Fuel Leak Case No. RO0002968 and GeoTracker Global ID T0619794453, UNOCAL #3072/ ConocoPhillips, 2445 Castro Valley Blvd, Castro Valley, CA 94546

Dear Mr. Nowell:

This letter was prepared in response to the May 22, 2015 letter from the Alameda County Environmental Health (ACEH) department regarding the evaluation for UNOCAL Site #3072, located at 2445 Castro Valley Boulevard in Castro Valley, California. The letter requested that Union Oil of California confirm that the site had no groundwater monitoring wells or remediation wells remaining that are associated with the subject fuel leak case and that all remaining investigation, remediation, and well destruction derived waste has been removed from the site.

Monitoring well installation and exploratory soil borings were conducted in 1990. The monitoring wells were destroyed by KEI in 1991. No additional wells were installed on the site after 1991. The last subsurface investigation was conducted in 2007 as part of the TRC additional groundwater assessment using cone penetrometer test (CPT). All waste generated from investigation activities has been removed from the site. If you have any questions, please call me at 510.596.9675 or email me at Katherine.Brandt@arcadis-us.com.

Sincerely,

ARCADIS U.S., Inc.
