Donna;

As previously mentioned in my earlier correspondence, ConocoPhillips is currently completing pre-divestiture assessment activities at many of our retail service stations. We've recently completed assessment activities at COP Site No. 6277 located at 1508 East 14th Street in San Leandro and I wanted to inform you of the results for the site. Results indicate the presence TPH, BTEX, ethanol and chlorinated solvents in soil and groundwater at concentrations that exceed pre-closure concentrations. The laboratory analytical results, site map and URR are attached.

We'll be submitting the assessment report to you shortly. Please contact me or Mr. Bill Borgh at (916) 558-7612 if this does not meet your notification requirements or if you have any questions.

Best Regards,
Eric
