Subject: RE: RO 2991 - 8410 Amelia Street, Oakland - Request for Work Plan Review

Given my current work load I will be able to complete this review by the end of April.

Subject: RO 2991 - 8410 Amelia Street, Oakland - Request for Work Plan Review

Hi Barbara,

I met yesterday 3/1/11 with the property owner for RO 2991 - 8410 Amelia Street, Oakland to discuss the status of the work plan. A soil gas investigation work plan prepared by P&D Environmental, Inc. dated August 9, 2010 was submitted to County for review between 6 and 7 months ago. The County has not yet commented on the work plan.

Appendix A of the work plan provides evidence of an offsite upgradient source (a former plating shop) for the TCE detected at the subject site. Please let me know if County agrees with my interpretation of the TCE originating from an offsite upgradient source.

I am also requesting that review of the work plan be completed. Please let me know when you anticipate that you will be able to complete review of the work plan.

Thank you!

Paul
