Subject: RO 2991 - 8410 Amelia Street Gasoline UST Closure

Hi Barbara,

The gasoline UST at 8410 Amelia Street in Oakland is too close to the building for removal. We have contacted City of Oakland Fire Department inspector Keith Matthews and obtained the list of necessary documents to submit the in-place closure application. We have also contacted a professional civil engineer to prepare the certification needed to close the UST in place. I anticipate that the permit application and associated documents and fees will be submitted to, reviewed, and approved by inspector Matthews by mid- to late-January.

I will keep you posted on developments.

Please let me know if you have any questions or need any additional information. Thank you!

Paul
