Subject: RE: Closure letter for soils only for 540 Cleveland Avenue, Albany

Cem,
While we can't call it a closure letter, I think we could provide a letter stating that it appears that soil contamination has been removed to the extent required. ACEH can only provide a closure letter for the entire site, which must include the groundwater portion.

Subject: Closure letter for soils only for 540 Cleveland Avenue, Albany

Hi Mark, The property owner for 540 Cleveland Avenue in Albany would like to obtain a closure letter for soils only, following the completion of the soils remediation and prior to performing verification groundwater monitoring. I believe this is necessary for the planned property transaction. Is this something which you would be able to provide?

Thanks,

-Cem
